Plans and specifications of work can be seen daily at the office of the undersigned.

The lowest or any tender not necessarily accepted.

By order JAMES D. ROBINSON,
City Clerk.
City Hall, 28th April, 1888. ap28

TRADE RELATIONS

With the United States--Mr. Jno. Charlton, M. P., Discusses the Subject Forcibly.

Masterly Array of Facts and Figures for the Farmer, Lumberman and the Miner.

Mr. John Charlton, M. P. for North Norfolk, is known to be one of the best informed of our public men on the subject of tariffs, trade relations with foreign countries and commercial affairs in general. During the great debate on the Cartwright resolutions Mr. Charlton delivered an able speech, which in point of statistics and valuable data was superior to any of the other able efforts. In discussing the practical parts of the question

FROM A FARMERS' STANDPOINT

he said that Canadians sold the Americans horses, cattle, sheep, peas, and on those articles a duty of twenty per cent. is levied. We sell them fish, and by the United States returns the duty on fish last year was 21.72 per cent. We sell them barley, rye, oats and buckwheat, and the duty on each of these articles is 10 cents a bushel. We sell them potatoes on which the duty is 15 cents per bushel. We sell them hops, on which the duty is 8 cents a pound. We sell them wool, on which the duty is 10 cents a pound; hay on which the duty is $2 a ton; lumber, on which the duty is $2 per M., butter, on which the duty is four cents a pound; iron ore, on which the duty is 75 cents per ton; coal, on which the duty is 75 cts. per ton; and salt, on which the duty is 12 cents per cwt., in bags and six cents per cwt. in bulk.

In considering the question of unrestricted reciprocity from a farmer's standpoint he went on to show the enormous increase which had taken place in the exports of barley, beans, peas, wheat, malt, potatoes, hay, horses and cattle. He did not think that any one will say that the removal of the duties charged by the United States on these articles which we sold to them would have the effect of reducing the price of their own productions. I do not think you can convince the common-sense yeomanry of this country that it would, because they know that the volume of our exports to the United States is so small compared with the volume of the United States productions, that the imposition of the duty has

LITTLE OR NO EFFECT ON THE PRICE

in that country. Upon these articles which I have enumerated there was collected last year $2,500,000 of duties; and in addition to the articles I have named we sold them buckwheat, rye, oats, turnips, vegetables, hops, flax-seed, seeds, poultry, butter, cheese, mutton, meats, etc., etc. The duties paid on all the articles sold by the farmers of Canada in the United States last year amounted to no less than $3,000,000, and the proportion these articles bear to the total quantity in the United States is very small.

THE FISHERMEN'S CASE.

Last year Canada exported to the United States fish to the amount of $2,717,509, the duty on which, estimating it at an average of 20 per cent., which is 1¾ per cent. less than the rate given in the United States returns, was $543,500. Now, the United States production of fish in the same year amounted to $43,046,053. We sold them therefore one-sixteenth of the quantity of fish they consumed, and they themselves produced fifteen-sixteenths. It will hardly be maintained that the removal of the 20 per cent. duty on one-sixteenth of the entire product would affect to any appreciable extent the value of the remaining fifteen-sixteenths.

THE LUMBERMEN'S POSITION.

Canada sold to the United States last year 508,304,000 feet of plank boards and joists, the duty on which amounted to $1,016,608. In addition we sold to the United States lath, hardwood, lumber, deals, spruce lumber, leal ends, pickets, staves, shingles, etc., and I have no doubt that the total amount of duty collected in that country on the product of our forests reached $1,200,000. While we sold to the United States that quantity of lumber, they produced themselves, according to the census of 1880, 18,000,000,000 feet, and the production last year was undoubtedly much greater. Our exports to them, therefore, averaged but one-thirty-sixth part of their total produce of lumber. I do not think that the removal of the duty on our small percentage of one-thirty-sixth would greatly affect the price of the balance, and the result is that we pay a good part of the duty on the lumber we export.

THE MINER'S CASE.

Last year we sold to the United States 404,042 tons of coal, on which the duty collected amounted to $303,032, and the production in 1880 in the United States—a production which has since largely increased—was 7,480,426 tons of coal. Last year it must have reached 10,000,000 tons. I doubt very much whether the removal of the duty off 400,000 tons would seriously affect the price of 10,000,000 tons. Of iron ore we sold last year to the United States 23,385 tons, and the United States produced in 1880 7,064,829. Last year no doubt the production in that country reached 10,000,000 tons. The trade in iron ore last year from the Lake Superior ports was of vast volume, reaching a value of over $30,000,000. The business was one of enormous magnitude. While the volume of that like trade amounted to several million tons in these ports, we have to show on this side this paltry figure of 23,385 tons as the total export of our ore to the United States. And this in face of the fact that there is lying at Cove mine, at the head of the Ontario & Central road, over 30,000 tons of iron ore, which has been lying there for the last two years. We have on the Canadian side an enormous quantity of ore of the best quality, and but for the restriction placed on the trade, our export would amount to millions of tons annually; it would give employment to thousands of men and millions of capital, and furnish traffic to new railway lines. Instead of that, we have, owing to the restriction imposed on our export trade, but the beggarly show to make of 23,385 tons shipped to the United States. We pay the duty on what little we do send. If we did not, we would send to the United States vastly more, because there would be an enormous demand for it, the quality of our ore being superior to what is obtained in the States for certain purposes. Let the restriction imposed on our exports of ore be removed, and an enormous demand for it will spring up.

COPPER ORE, SALT, ETC.

Turning to the article of copper ore Mr. Charlton said that the total sales to the Americans last year was 5,267 tons. We have enormous quantities of this ore on our shores, but the duty of 2½ cents per pound on the yield in copper effectually bars the trade. Of salt, last year we sold to the United States 106,750 cwt., while the United States production in 1880 was 29,805,298 cwt. Our salt obtained the small sale it did in spite of the duty, and solely on its merits, because it is of a superior quality, and if the duty were removed it would force its way into American consumption. But for the duty an enormous trade would spring up in the salt districts of Lake Huron. One of the best demonstrations of an increase in trade which will be sure to follow the removal of the duties, is furnished by the trade in eggs. In 1870 our export to the United States amounted to $114,000, in 1878 it reached $631,204, and 1887 $1,821,864. The little item has grown to be one of the most important articles of export in Canada, simply because the duty was removed on the importation of eggs into the United States. So much for the question of who pays the duty upon what we export to the United States.

THE DUTY OF THE HOUR.

TO THE EDITOR OF THE TIMES.

SIR;—New Westminster is moving in every way for a southern railway connection. Land is booming on the opposite side of the river from the Royal City, so that, although connected with the C. P. R., and enjoying advantages that we do not, her citizens are not yet content but are urging construction of the Southern Railway in every possible way, while I might say we in Victoria are laying idle. What we want is a close connection with the American railway system, and the carrying out of the ferry scheme. Every inducement should be offered by our citizens and the holding of public meetings to bring this important matter forward. The building of sixty miles of railway on the American side will bring their lines within one hour's steam travel from the outer wharf, and unless we have such a connection we must expect Vancouver and New Westminster to boom along ahead of us. A direct southern connection we must have, if we expect Victoria to prosper as nature intended she should.

PROGRESS.

Victoria, May 1, 1888.

FISHERY QUESTION.

A Fiery Senator Believes that The Roar of British Cannon Will Speak.

A Determination to Maintain for Canada Her Just Rights in Her Fisheries.

BRITISH CANNON WILL SPEAK.

Ottawa, May 1—In the Senate yesterday the Fisheries Treaty was up for discussion. Senator Ferrier said that if the United States do not adopt the treaty it will be all the worse for them. "We shall have done our share in making liberal advances and concessions" said he, "and if rejecting that which is just they should, relying on their numbers and wealth, force through the lines that show the limit of our legitimate inheritance and attempt to prey upon our national substance, it will not be Canadians fault if behind their fleet and within sound of their Atlantic cities, they hear nearer and nearer the mighty voice of British cannon."

LOCAL ELECTIONS IN QUEBEC.

Winnipeg, May 1—Elections for the Local Legislature were held last Saturday in the counties of Hochelaga, Maskinonge and Missisquoi. Champagne, Liberal, was elected for Hochelaga by a majority of 240; Legris, Nationalist, by 69 majority carried Maskinonge; Spencer, Conservative, the former member, carried Missisquoi, but by what majority is not known. The result of these elections strengthens the Mercier Government by a couple of votes.

CABLE NEWS.

BOYCOTTING THE PAPAL EMISSARY.

Dublin, May 1—Irritation caused by the decree of Pope Leo against the "Plan of Campaign" is manifesting itself in strong antipathy to Monsignor Persico, on whose reports of the state of affairs in Ireland it is believed the decree is based. In the neighbourhood of the convent where the Papal emissary resides the people, who formerly saluted him with respect, refuse recognizing him, and the local bakery refuses to furnish bread to the convent so long as Monsignor Persico is an inmate.

ADMIRAL RYDER DROWNED.

London, May 1—Admiral Sir Alfred Ryder was drowned in the Thames by accident.

NOTED BANDIT KILLED.

Havana, May 1—Advices from Matanzas state that the bandit Marrera has been killed and the bandit Alfonso severely wounded.

BANK SETTLEMENT DAY.

London, May 1—To-day is the semi-annual settlement day at the Bank of England, and is therefore a holiday on the Stock Exchange.

COMMENCEMENT EXERCISES.

London, May 1—Cambridge University has appointed the Rev. William Crosswell Doane, Bishop of Albany, New York, has been selected preacher for the commencement exercises in June.

THE QUEEN GRATIFIED.

Berlin, May 1—The Empress has received a letter from Queen Victoria in which Her Majesty expresses great gratification at the cordial reception accorded to her by the people of Berlin.

CARNOT BANQUETTED.

Paris, May 1—The municipal authorities of Rochefort gave a banquet in honor of President Carnot last night and the President started from Rochefort for Paris this morning. A crowd gathered at the station and greeted him with hearty acclamations.

THE EMPEROR WORSE.

Berlin, May 1—The Emperor passed a sleepless night and his fever has increased.

FASTEST TRIP ON RECORD.

Queenstown, May 1—The British four-masted ship Wendur has arrived here after an extraordinary fast passage of seventy-eight days from Tacoma, W. T. The Wendur is two years old and hails from Glasgow.

A $2,000,000 TUNNEL

Caves in at Mullan, on the Northern Pacific Railway--Great Loss of Life.

Destructive Floods in Vermont--Immense Manufactories Close Down.

MULLAN TUNNEL RUINED.

Minneapolis, April 30—A Garrison special says: Mullan tunnel, on the Northern Pacific railway, which passes through the main range of the Rocky Mountains, will probably be a total wreck, owing to the action of melting snow and spring rains. The heavy squeeze has already necessitated the abandonment of the tunnel. The loss will be over $2,000,000.

CRUSHED TO DEATH.

Butte, Mt., May 1—Andre Racine, employed in the smelter works at Meaderville was caught by the fly wheel last night and crushed to death.

WORKS STOPPED, STOCKS RUINED.

Bellowsfalls, Vt., May 1—The water has invaded a number of mills, stopping all work and ruining large stocks. Part of the Russel Paper Co.'s mills were saved in by the force of the water. The loss alone here is over $300,000. Little town is in darkness and cut off by rail, while at Ternbridge the torrent invaded the streets. Fifty thousand dollars worth of lumber, five tenements and four saw mills have been swept away.

MONTANA'S REGULAR MURDER.

Helena, Montana, May 1—G. Sheperd shot and killed Jno. Malt at Musselshell last night in a dispute over cards.

ESCAPE OF TWO PRISONERS.

Tucson, Ariz., May 1—A *Star* Solomonville special says: Yesterday morning two prisoners at the county jail, confined for horse stealing, escaped by pulling the jail guard inside the door, taking his pistol and locking the jailer in the cell. They shot a Mexican prisoner who was outside and made their escape. A citizens posse are in pursuit.

DIVIDEND DECLARED.

Philadelphia, Pa., May 1—The Directors of the Pennsylvania Railroad Company to-day declared a semi-annual dividend of 2½ per cent.

A BITE DID IT.

Carthage, Ill., May 1—Arthur Yates, eight years old, died here yesterday from hydrophobia. He was attacked by a shepherd dog four days ago and received an ugly wound in the face. The poor boy suffered intensely.

FLOODS IN THE EAST.

Boston, Mass., May 1.—Dispatches received this morning report that the snow is melting on the mountains causing great damage. At Bennington, Vt., three large railroad bridges and a number of small ones have gone. Traffic on the Vermont Central is at a standstill and the town is full of people driven from their homes by the floods. They left all their effects behind. A number of families are cut off from the town by the washouts and are camping in the hills.

THE RAGING TORRENTS.

Portland, Me., May 1.—The Kennebec river is over its banks in several places. At Augusta people are greatly alarmed for fear of the rising waters. Farm structures and drowned livestock are sweeping past the city. Other points reports a similar condition of affairs.

ARRIVALS IN 'FRISCO.

San Francisco, May 1.—Arrived: The steamer Mexico, from Victoria; the ships Blue Jacket, from Seattle, and the Carrollton, Port Moody.

ELLIS SHOOTS A ROBBER.

San Francisco, May 1—Joseph Crohn robbed a woman of her purse this morning. He was arrested by two policemen. Whilst going to jail he broke away and was fatally shot by Officer Ellis.

BROOK'S LIQUOR LAW.

Pittsburg, Ga., May 1—At 12 o'clock last night the Brook's Liquor Law went into practical operation and 502 saloons out of 727 in the city closed up, probably never to be re-opened. In Allegany county there were 1551 applications for licenses but only 485 were granted.

ARTHUR IN CHICAGO.

Chicago, May 1.—Grand Chief Engineer Arthur, of the Brotherhood of Locomotive Engineers, arrived here this morning. The object of his visit is to lay out a plan of operation for investigation before the Inter-State Committee Commission of the Burlington strike, which will begin next Saturday.

BREWERS ON STRIKE.

Buffalo, N. Y., May 1.—Five hundred union employes in the breweries here struck this morning. The breweries are still running with small forces.

Onions and Education.

One of the teachers of the public school has complained to the trustee board that all her pupils eat onions, which is very offensive to her olfactory organs. This is interesting. We fairly weep ourselves at the thought of a whole school eating onions, and, to be candid, we have to admit that there is no doubt but this kind of education is going to ruin the good breath of the country, so to speak. Mr. Dunsmuir is therefore a statesman and amply justified in his forebodings. But to return to the onions. What is going to be done to relieve the teacher with the sensitive organ? The School Act cannot be amended to meet the case till next session, and meantime a new, strong, vigorous smelling onion crop is growing up. This is a national question. The onion is a national product, and so is the teacher, and the question is whether the onion or the teacher has got to go. We say the onion; Mr. Dunsmuir says the teacher. We trust the matter can be decided without the intervention of a royal commission, but whatever enquiry takes place it is hoped the children will have a hearing, and be allowed to express their opinions on the odor of cloves and coffee beans, and also, to explain their preference for the healthful onion.

Counterfeiters Captured.

The Ontario detectives succeeded last Sunday in capturing Chas. F. Knight and Alex. W. Vance in Toronto, charged with counterfeiting and uttering forged notes on the Bank of British North America in the vicinity of Kingston a few days previous. They made a desperate effort to escape, but failed. Their operations were extensive and their victims numerous.

—Hot luncheon between 12 and 2:30 daily, except Sundays, at the Boomerang. McDermott & Cliff, proprietors.

PERSONAL.

Mr J C Devlin arrived down on the Yosemite last night.

H Fry, M P P, left for his home on the train Monday morning.

Charles A Semlin, M P P, left for the Mainland this morning.

Alderman D R Harris was a passenger by the Yosemite last night.

Archdeacon Woods arrived in this city on the mainland steamer last evening.

Joseph Mason, M P P, is improving rapidly and will be around again in a few days.

J A Laidlaw was a passenger from New Westminster on the steamer Yosemite last night.

Mrs T L Briggs, of Westminster, was visiting Mrs T L Wait, of North Seattle, last week.

At the Driard: Pringle Hughes, England; D M Gunn, St Paul; J A Laidlaw, New Westminster.

Jane Templeton Mills died at the residence of her husband, D. O. Mills, New York, last Thursday.

W C Ward, manager of the Bank of B C, returned from the Mainland last night on the steamer Yosemite.

Miss Hettie B Young, of this city, who has been visiting friends in Tacoma, will return home this week.

The Hon John Gates, Mayor of Portland, died suddenly and unexpectedly last Friday. He was ill for several days.

Miss Mercier, daughter of Premier Mercier, Quebec, is to be led to the hymeneal altar by A B Gown, advocate, in May.

Mrs J C Mordare and family and Miss Edith Richardson left this morning on a visit to Matsqui. They will be absent some weeks.

Her Gracious Majesty the Queen arrived at Windsor on Friday evening from the continent. She was looking well and in perfect health.

Mr T B Watts, of North Wales, is on a visit to the Northwest. He will extend his trip to British Columbia before returning to Great Britain.

D R McIntosh, H A Harvey, San Francisco; L G Clark, New Hampshire; Geo L Clark and wife, Mass; J Allen Clark Toronto, are at the Clarence.

Messrs Wm and David Gamble, Erin, County of Wellington, have left for Victoria, B C. They intend to go extensively into the sheep raising business.

Joseph Bigham, of Mount Forest, and James McEachren, of Egremont, Ont., have left for British Columbia, the former on account of ill health, and the latter to better his prospects.

Mr Alfred Holman, who has been the associate and managing editor of the Portland *Oregonian* since 1887 has assumed charge of the editorial chair of the Seattle *Post-Intelligencer*.

Mr and Mrs H N Bate, of Ottawa, are now on their way to this coast. After visiting California they will come to Victoria, and from thence pay a visit to Alaska, as well as make a tour of this province. It will be some months ere they return to the capital.

At the Oriental: J Neville and wife, Omaha; L L Gale, J Delgardue, Port Townsend; A R Johnston, Nanaimo; J G Henderson, Chilliwhack; J. M Drummond, Langley; R E Gibson, Pembroke, Ont; W T Strother, Revelstoke; T F Sinclair, Port Haney.

The Hon Sidney Smith, of Cobourg, well known in Ontario political circles, was lying dangerously ill at his residence last week. His family were called to his bedside. Amongst these are Mr H H Smith, Dominion Lands Commissioner, Winnipeg. He and his wife expect to be absent a month.

Miss Mabie Allan, youngest daughter of the late Sir Hugh Allan, and Mr Colin Campbell, of St Helaire, Quebec, were married in St Andrew's church, Montreal, last Thursday in the presence of a large assemblage. The presents were numerous and extremely costly. The bride has a fortune in her own right of $160,000.

Capt Delgardue, of Port Townsend, is on a flying visit to this city. He has retired from the "pilotage grounds" he formerly enjoyed and has gone into the hotel business there. In this city the Captain has property on Humboldt street, which he intends to improve. The future of Port Townsend the Captain speaks hopefully of. It has a boom at present, which bids fair to outlast Seattle.

Mr D L McIntyre, for many years business manager of the Winnipeg *Free Press*, has purchased the Port Arthur *Sentinel*, at present a quasi Conservative sheet. "Dunck" is a thorough business man, young and energetic, and will not rest until the *Sentinel* is the leading journal of Northwestern Ontario. In that section there is a great railway and mining boom in force at present, all of which Mr McIntyre will catch on the fly.

Registered at the Occidental are J S Roberts, W Ruddock, J Mead, Vancouver; Captain Hackett, E C Le Blanc, Nova Scotia; H Fitzner, S Blanchard, Los Angeles; P Tourney, H Tourney, James Hamilton, San Francisco; Mrs Frew, Nanaimo; Mrs Richards, San Francisco; Jacob Morgan, W A Jones, Seattle; R H Cashor, Collingwood; J C Maitland, P Porter, W Ireneck, Shawnigan; S Sherman, Roslyn, W T; G H Johnson, Ralph Bourne, Montana; W J Loate, Ingersoll, Ont.

Dangerous Man.

A lively scene occurred in the office of the Saturday *Star* this afternoon when Dr. Griffin, with head uncovered and right hand raised to Heaven, swore that he would kill the man that referred to him again in that paper.

Railway Excursion.

The combined temperance bodies will hold a picnic at Langford Plains on the Queen's Birthday. Trains will leave the depot three times during the day, and a fine programme of sports will be carried out on the beautiful plains.

Funeral of Mrs. Hills.

The mortal remains of Mrs. Philadelphia Louise, beloved wife of the Right Reverend George Hills, D. D., will be laid at rest to-morrow morning. The funeral will take place from Christ Church Cathedral at 11:30 o'clock, and from thence to Ross Bay cemetery.

Returning the Compliment.

The gentlemen who were the guests of the Married Ladies' Club last winter, at their several social gatherings, have arranged to return the compliment by holding a grand ball and supper in the Assembly Rooms, Fort street, on the 11th inst. Invitations are being issued for this affair, which promises to be the event of the season.

Arrival of the Thetis.

The United States corvette Thetis arrived in Esquimalt at 7 o'clock this morning from Port Townsend. She is a vessel about the size of H. M. S. Wild Swan and carries three guns. It is not definately known when the Thetis will sail and as her destination is the Behring sea, our sealers will take a note of her and give the foreign craft plenty of sea room.

COMING TO IT.

The government at Ottawa is already beginning to discern the signs of the times. Sir CHARLES TUPPER has given notice of a resolution repealing clause 9 of the Duties of Customs Act, and substituting therefor a new list of articles which he wishes the Parliament of Canada to place upon the free list or to admit at a lower duty, whenever the United States deals similarly with these. Sir CHARLES' new reciprocity resolution is as follows:

Resolved, That section 9 of said act be repealed and the following substituted therefor: "Any or all of the following things: Animals of all kinds, hay, straw, vegetables (including potatoes and other roots), salt, peas, beans, barley, malt, rye, oatmeal, buckwheat flour of rye, oats, buckwheat flour, butter, cheese, fish of all kinds, fish oil, products of fish and of all other creatures living in the water, fresh meats, poultry, stone or marble in its crude or unwrought state, lime, gypsum (ground or unground), hewn or wrought or unwrought burrs or grindstones, and timber and lumber of all kinds, manufactured in whole or in part, including shingles, clapboards, and wood pulp, may be imported into Canada free of duty, or at a less rate of duty than is provided for by any act at the time in force, upon proclamation by the Governor-General, which may be issued whenever it appears to his satisfaction that similar articles from Canada may be imported into the United States free of duty, or at a rate not exceeding that payable on the same under such proclamation, when imported into Canada."

A comparison of this resolution with clause 9 referred to will show the difference between them. It will be observed that seeds, plants, trees, shrubs and green fruit are omitted, the government having been forced to keep good faith on the part of the Dominion with the United States by placing these on the free list some days ago. So far as coal, coke, hops, wheat, Indian corn, flour of wheat and Indian meal, lard and tallow are concerned the offer is withdrawn. Salted and smoked meats are also excluded. The offer with regard to fish is rendered much more comprehensive, including not only fish salted or smoked, "but fish of all "kinds, fish oil, products of fish and "of all other creatures living in the "water." The object of this is evident; it is to form a basis for the settlement of the fishery question by the United States at any moment by placing fish of all kinds and fish products upon the free list. The offer is further extended to include poultry, stone or marble in its crude or unwrought state, lime, gypsum (ground or unground), hewn or wrought or unwrought burrs or grindstones, and timber and lumber of all kinds, manufactured in whole or in part, including shingles, clapboard and wood pulp. The proposed clause cannot be considered in any other light than that it is a long stride in the direction of reciprocity, to which it is evident the powerful speeches and agitation throughout the country has compelled the government to veer. Only let the government alone for a short time in order to give it ample opportunity to call the advocates for unrestricted reciprocity "traiters" to their country and Sir JOHN, Sir CHARLES, Sir HECTOR and the other super-loyal brawlers will be found gulping the whole policy of the Liberal party without a single squirm. This, however, would be but history repeating itself and the Conservative party proving itself true to its past traditions.

THE SCHOOL BOARD SETS ITSELF RIGHT.

The Victoria School Trustee Board have made haste to put themselves right before the people on the school tax question. They repudiate the statement of the Provincial Secretary that they asked for it, and here a question of veracity arises between the Hon. Mr. ROBSON and the Board. In moving the second reading of the bill the Hon. Mr. ROBSON said: "The proposition which this bill contains to relieve the government of a portion of the cost of education, although it passed the Trustee Board of Victoria unanimously has been protested against strongly by the other three cities." Now, what has the board to say about it. The chairman (Mr HAYWARD) says: "We certainly never thought or proposed that a portion of the teachers' salaries should be imposed on the municipality." So far so good. Now let us call Dr. Milne, a disinterested witness. He says: "The idea of the resolution as passed by the board was to obtain power to levy a very slight tax for the purpose of defraying the incidental expenses of the school, the government appropriation not being large enough to cover them. It was never intended that special taxation as provided for by the act, should be instituted." What has the leader of the government and his colleagues to say to that? Will they deny that they did not wilfully lead the House astray in this matter? When Mr GRANT said the people of Victoria were opposed to the proposition ten to one, the Hon. Mr. PUTTEN said: "No," he "had heard no one speak against it." Mr. DUCK, to his credit be it said, opposed this unjust measure; but what can be said of the Hon. Mr. DAVIE and the magnanimous Mr. HIGGINS who, while living outside the city limits, cheerfully voted to impose the tax?

OUR SHAME.

The statement of the President of the Council respecting the probable "ruination" of this country by education has made the province the butt of much humorous and not to say favorable criticism by our American contemporaries. They appear to confound Mr. DUNSMUIR with the province and to take it for granted that the views entertained by him are those of the people of British Columbia. Being the most wealthy man in the province and standing at the head of the government it is not surprising that his remarks should attract attention, and it is only to be regretted that they are such as to bring the blush of shame to our cheeks in the place of the pride which true Britishers always feel in the public men and their institutions of their country. Among the most harmless of things which has been said about Mr. DUNSMUIR and the province is the following from the Port Townsend Argus:—"DUNSMUIR, the British Columbia millionaire and coal king, has turned statesman. He sees danger ahead for that young and vigorous commonwealth. His eyes are luminous with prophecy and his heart is big with fears. According to the Victoria TIMES here is his last sage and statesmanlike utterance: 'I say, I don't care who hears it, that too much education is going to be the ruination of this country.' Now, who but a great farseeing patriot, ever would have dreamed of such a thing. We were over to Victoria the other day and really the sense of educational superiority was not oppressive. We saw one or two school houses but not enough to seriously alarm us."

WOMEN AS SCHOOL TRUSTEES.

To such of our fossilized legislators and others opposed to women acting as school trustees we commend the following extracted from the Toronto Globe of the 24th inst.: "If anything were necessary to confirm the belief that good results will come from the appointment of Mrs. EWART and Miss CARTY to the new High School Board, Ald. BAXTER's opposition would supply the lack. It may almost always be taken for certain that what he is against will prove of benefit to the public. No one can wonder that the veteran obstructionist dreads the influence of women in public affairs. Schools conducted under the supervision of women trustees will not turn out many scholars likely to become supporters of Baxterian schemes. The belief that useful reforms will come of the ladies' trusteeships rests upon a great mass of evidence. In the United States women have been found very efficient in such positions, and the history of the London School Board, to which ladies are eligible and have been in several cases elected, confirms American experience. We would especially direct the attention of Mrs. EWART and Miss CARTY to the evil system under which children are compelled to study laboriously of evenings at their homes. Thus many injure their eyes, and few escape without evil effects on their nervous system. There is, so far as most parents can see, no reason why boys and girls—at least till they are far advanced and strong of body and mind—should not perform all their lessons at school, and have their evenings for such relaxation as may send them unfretted to their night's rest.

PERVERSE SOLONS.

Under the above heading the Kamloops Sentinel very properly questions the moral soundness of our legislation and the sincerity of our legislators. It says, "British Columbia's legislative solons evidently either believe that the moral tone of the people of this province can not be improved or that any attempt at such advancement is uncalled for. The course pursued in regard to the liquor bill gives occasion to believe that it was not intended to pass, but was brought out merely as a feeler or in assumed compliance with the wishes of a certain section of the community. But the friends of the bill will not be shut out as easily as is anticipated. Those who refuse to advance with public opinion will have to give place to others who will. * * * Our legislators have plainly announced their intention not to move with the tendency of public opinion in the direction of efforts at moral and social advancement. The advocates of those measures have the remedy in their own hands, in selecting and supporting representatives who are guided and influenced by higher and better motives than is apparent in the actions of many of the present members.

Our placid contemporary who sits on the banks of the Fraser rises to explain that "it is not often that the "Columbian differs from the Provincial Secretary; but when such occasions arise, it does not hesitate to "express its opinions respectfully "and firmly." We will admit that our contemporary invariably expresses itself meekly and respectfully which is the only material difference we have been able to discover between it and the Provincial Secretary. That gentleman is not always respectful by any means. For our part we would be very glad to think that our friend was as independent as he professes to be, or even to assist him in such a course; but we have long noticed that "it is not often the Columbian differs from the Provincial Secretary" that in reality the distinction between it's sentiments and those of "Brother John" is a "distinction" without a difference.

Hon. Mr. Costigan said recently in the House that it was the intention of the government to appoint inspectors, under the food adulteration act, to subject to analysis intoxicating liquors publicly offered for sale, in conformity with suggestions of temperance associations.

At latest accounts from Ottawa the condition of Hon. Mr. Justice Henry was extremely critical.

The impression grows stronger that Hon. J. H. Pope's end is approaching and he cannot last long.

The New York Senate has passed the high license bill by a vote of 17 to 15. It now goes to Governor Hill for approval.

It is the intention of the government to introduce a bill to suspend the revision of the voters' list for the Dominion, under the franchise act, for another year. By that time the list will all be printed at the government printing office, Ottawa, and forwarded to the revisers for correction.

A press view of the Glasgow Exhibition, which opens on the 8th May, has just taken place. The reports are highly favorable as to prospects. The Canadian exhibit is small, being made up from the exhibits at the Colonial and Liverpool exhibitions, but a good site has been secured.

THE Customs authorities have decided that pure extract of malt of hops contains over 7 per cent. of spirits and is therefore dutiable at a rate of $2 per gallon and 30 per cent. ad valorem. This extract has been entered at 25 per cent. duty under the item of extract of malt or maltine, and also under the head of preparatory medicine in liquid form which pays a 50 per cent. ad valorem duty.

A return laid before the Commons shows the total expenses of the Northwest rebellion to have been $5,897,256, including all payments to the first of April, 1888. By departments the expenditure has been: Militia, $4,671,324; Interior, $664,957; Mounted Police, $526,000; Indian Affairs, $34,978. The amount of expenditure in the present fiscal year on rebellion account has been half a million dollars.

The Liberals have held a caucus at which it was resolved that Sir Richard Cartwright should move an amendment to the budget going into the supply, setting forth the terrible financial condition of the country, condemning the government for this condition and for not proposing any measures of relief. The C. P. R. terms were also discussed and it was decided that no sufficient security was being offered by the company for the guarantee.

Dewdney's friends are pushing his claims for his appointment to the position of Minister of the Interior. One of the Northwest members said to-night it was most likely Dewdney would be taken into the Senate and appointed to the Cabinet after the session. The Manitoba and Northwest members all think the Northwest should have the appointment, but they cannot agree on a man. Mr. A. W. Ross is also pushing his claim for the coveted position.

Our morning contemporary is in high jinks because we inadvertently stated that one of the acts passed at this session was disallowed at Ottawa. We admit that this was scarcely accurate, and were probably aware of the error long before it came under the observation of the lynx-eyed editor of the Colonist. It is, however, after all but a question of tense. Every year a considerable proportion of the bills passed by the provincial legislature is disallowed at Ottawa and there is very good reason for believing that this year's work will form no exception to the rule. It does not therefore require the gift of prophecy to enable one to foresee the inevitable and our very slight error it will be seen, was merely one in tense.

WHEN the origin of the existing British law against marriage with a deceased wife's sister is considered, the prejudice against the amendment of that law seems strangely silly and blind. The law originated in the reign of Henry VIII., and was framed to suit the convenience of that amorous monarch. Henry, who had married the widow of his brother, fell in love with Anne Boleyn. Simultaneously with this new love came misgivings as to the propriety of his first marriage. Parliament was made aware of the king's desire to have the marriage annulled, and that complaisant body passed the law which freed bluff King Hal from Queen Katharine. This is the law which is clung to almost as reverently as are the Thirty-nine articles.

The Toronto Globe's London correspondent cables that journal on the 26th ult., that the scheme of Crofter emigration is under consideration by the Manitoba authorities. He hears on good authority that it is somewhat doubtful whether public support to the extent of $2000 which must be promised before the Imperial Government grant of $10,000 starling is paid, will be forthcoming. Hitherto donations have come in very slowly, moreover the emigration season is far advanced and it is quite likely it will prove impossible to provide funds, select emigrants, and start and settle them in the Northwest before the end of May; hence it is probable the attempt will have to be postponed until next season unless pushed forward now unusually rapidly.

A Charleston newspaper recently asked eight ministers of various denominations what they thought would be the fate of the heathen after death. Five of them, a Methodist, an Episcopalian, a Unitarian, a Catholic and a Jew, thought that those who were invincibly ignorant of the truths revealed by Christ, and who faithfully observed the Divine natural law, aided by the light of reason and the grace of God might be saved. A Scotch Presbyterian thought that all heathen or Christian who died without conversion, would be damned. A Presbyterian thought that the heathen would be judged by their own conscience, but doubted their salvation unless they were converted. A Baptist thought there was no salvation out of Christ, and that God had done enough to leave the heathen without excuse.

The Canada Presbyterian observes that whatever may be the ultimate result of the great debate on the tariff resolutions proposed by Sir Richard Cartwright it should have one good immediate effect. It should teach Canadians to set a higher estimate on the ability of our public men. There were ten or a dozen speeches delivered during this debate that compare quite favorably with the best efforts of recent years in the American Congress or the British House of Commons. Of course we have no Gladstone, but there is only one Gladstone in Britain. There is a class of people in Canada who think all English members of Parliament are Gladstones, all English preachers are Spurgeons, all Scotch preachers Guthries, and all Irish ministers Cookes. These good souls never spent an evening in the Imperial House of Commons when the average member was having his "innings," nor did they ever worship in any of the churches of the dear old land. Had they ever done either one or the other they would be less inclined to overrate everything across the water and belittle everything and everybody in Canada. There are some very able men in the Dominion Parliament even when Hon. Edward Blake and Sir Charles Tupper are not in their places. There was a vast amount of useful information as well as many good specimens of robust reasoning in some of the late speeches. No young Canadian could read them carefully without mental improvement.

It is stated that the family of the late Thos. White will reside in Ottawa. An effort is being made to induce the government to embrace in the supplementary estimates a gratuity to the widow and family of the late Minister for his services to the country. In a lengthened obituary appearing of him in the Canada Gazette in which he was supposed to hold an individual interest it is stated that his father was an Irishman and his mother a Scotch lady, a native of Edinburgh, where she was educated and brought up. The Eastern press, irrespective of politics or creed, was unanimous in its praise of the late Minister, expressing regret at his untimely death and the great loss the country had sustained in consequence.

THE old saying that "beefsteak is better medicine than quinine" is receiving able support from many white men on the Congo. Stanley regarded Boma as a particularly unhealthful place, but it has lost a part of its bad reputation since cattle was introduced and European vegetables began to thrive in the gardens. The thirty white men at this settlement have not been called upon to attend the funeral of a European for a year. Their herd has multiplied until they are able to have fresh meat on their table every day, which they think is a great improvement on the tinned meats and canned vegetables upon which Stanley and his followers relied for strength to lay the foundations of the Congo enterprise.

Sir Charles Tupper has received a letter from Acting Secretary Thompson, of the Treasury Department at Washington, stating that hereafter thoroughbred Canadian cattle for breeding purposes will be imported into the United States duty free, thereby abolishing the unjust discrimination against Canadian exporters, the law previously not allowing an American purchasing thoroughbred cattle in Canada to enter them duty free.

The Ottawa Free Press observes that there is something characteristic of Sir John in his dividing his cabinet between the Grand Trunk and the C. P. R. in the recent vote on the Southwestern bill, Sir John, Sir Charles, Sir Hector, (all the knights) and Mr. Carling for the C.P.R., and what Sir Hugh Allan once called the "unimportant members," for the Grand Trunk. Mr. Hickson will see that Sir John does not see any necessary connection between Knights and the Grand Trunk, and that he might just as well have gone with the Liberal party at the last elections.

For Toilet Use.

Ayer's Hair Vigor keeps the hair soft and pliant, imparts to it the lustre and freshness of youth, causes it to grow luxuriantly, eradicates Dandruff, cures all scalp diseases, and is the most cleanly of all hair preparations.

AYER'S Hair Vigor has given me perfect satisfaction. I was nearly bald for six years, during which time I used many hair preparations, but without success. Indeed, what little hair I had was growing thinner, until I tried Ayer's Hair Vigor. I used two bottles of the Vigor, and my head is now well covered with a new growth of hair. —Judson B. Chapel, Peabody, Mass.

HAIR that has become weak, gray, and faded, may have new life and color restored to it by the use of Ayer's Hair Vigor. "My hair was thin, faded, and dry, and fell out in large quantities. Ayer's Hair Vigor stopped the falling, and restored my hair to its original color. As a dressing for the hair, this preparation has no equal.—Mary N. Hammond, Stillwater, Minn.

VIGOR, youth, and beauty, in the appearance of the hair, may be preserved for an indefinite period by the use of Ayer's Hair Vigor. "A disease of the scalp caused my hair to become harsh and dry, and to fall out freely. Nothing I tried seemed to do me any good until I commenced using Ayer's Hair Vigor. Three bottles of this preparation restored my hair to a healthy condition, and it is now soft and pliant. My scalp is cured, and it is also free from dandruff.—Mrs. E. R. Foss, Milwaukee, Wis.

Ayer's Hair Vigor,

Sold by Druggists and Perfumers.

PERFECT SAFETY, prompt action, and wonderful curative properties, easily place Ayer's Pills at the head of the list of popular remedies for Sick and Nervous Headaches, Constipation, and all ailments originating in a disordered Liver.

I have been a great sufferer from Headache, and Ayer's Cathartic Pills are the only medicine that has ever given me relief. One dose of these Pills will quickly move my bowels, and free my head from pain.—William L. Page, Richmond, Va.

Ayer's Pills,

Prepared by Dr. J. C. Ayer & Co., Lowell, Mass. Sold by all Dealers in Medicine.

SAN JUAN ISLAND.

An Historical Hog—Emperor William's Decision—An Interesting International Case.

In the current number of *St. Nicholas* appears an interesting article entitled "an Historical Animal." Between two groups of islands in the extreme northwestern part of Washington Territory run two narrow straits—one called the Canal de Haro, and the other the Rosario strait. Between the two is San Juan Island. It commands both waterways, and hence it would be of great value to either country that owned it in case two nations should ever quarrel. The text of the agreement between Great Britain and the United States reads that the boundary should be "the middle of the channel" without saying which channel. A man named Hubbs, who was pasturing sheep on the southern end of the Island of San Juan had for a neighbor on the north end a man named Griffiths. This Griffiths was employed to raise pigs for the Hudson Bay Company. The pigs overran the island and caused Mr. Hubbs a great deal of trouble, so one day, in a moment of anger, he warned his neighbor Griffiths that if another pig came upon his land he would kill it. The very next day a pig did trespass there. Mr. Hubbs kept his word and killed the pig. Griffiths was then as angry as Hubbs had been, and immediately sailed over to Victoria—the busy little city on Vancouver Island, where the officers of the government, the soldiers and the ships of war had their headquarters—and obtained a warrant, or, order issued by a court of law, for Hubbs' arrest. A constable went to arrest Hubbs and to take him to Victoria for trial upon the charge of killing the pig. But Hubbs refused to go with him. He said he was an American citizen, and that therefore an English warrant was nothing to him. The constable departed, and Hubbs, well knowing the officer would come back and force him to go to Victoria, sent over to Port Townsend, in Washington territory, for protection. A company of soldiers was sent him, and the English did not molest him.

For five years that little island was occupied by soldiers of two mighty nations. Each camp displaying the flag of its country on a high staff over the tent—the stars and stripes fluttering over the pastures at one end and the red banner of Great Britain among the hills at the other, only a few miles away. On either shore the people were greatly excited, and many of both sides favored war; and perhaps if it had not been about the time of the actual war between the states in 1861, there would have been war over that pig dispute.

The United States Government wished the middle of the Canal de Haro to be the border line, because they claimed that it was the true ship channel, but to this the British had never been willing to agree, since that boundary would give San Juan to our country, and with that island went the control of the gateway of the English possessions. Finally, the papers on both sides were prepared by the respective governments and submitted to the Emperor of Germany, who decided in favor of the United States. And thus it happens that the greatest of European rulers not long ago passed judgment in a quarrel that began over a pig that was only trying to get something to eat.

THROUGH THE FOREST.

The Old and Young Danced All Night—Our Hardy Ancestors.

Old men live in the past.

Perhaps it would be better for the young men of the present if they lived a little bit more in the past, and drew less on the future.

The log cabins of primitive times would seem very cheerless habitations to the people who live in the finely constructed, furnace heated mansions of to-day. But our grandparents took a great deal of comfort in these rude homes.

They were rugged and healthy. The men had stalwart and hardy frames, and the women were free from the modern ailments that make the sex of to-day practically helpless slaves to hired foreign help.

White-haired grand-sires frequently took their life partners and on horseback rode a score of miles through the forests to enjoy the lively pleasures of a frontier ball, danced till daylight, rode home again in the early morning, then put in a good day's work.

Middle-aged folks of to-day couldn't stand that sort of a racket.

To these mud-chinked log cabins doctors' visits were a rarity. The inhabitants lived to a rugged and green old age.

Sometimes these log cabin old-timers were taken ill. They were not proof against all the exposures to which they were subjected. They found the effective remedies for these common ailments in the roots and herbs which grew in the neighboring forests and fields. They had learned that nature has a cure for every ill. These potent remedies assisted their sturdy frames to quickly throw off disease and left no poison in the system.

The unpleasant feature of modern practice with mineral medicines is the injurious after effect on the system. May not modern physical degeneracy be due to this feature?

A drug-saturated system is not in a natural, consequently not in a healthy, state. If any of the main organs are clogged with traces of the mineral poisons used to drive out a particular disease, the whole machinery of life is deranged and early decay of natural powers is the inevitable result.

There can be no question that remedies from the laboratory of nature are the best. If they are as efficacious, they have the advantage of *leaving no after sting.*

Their efficacy, if properly compounded, and the proper remedy applied to the proper disease, will not be doubted. The experience of ages proves it.

Their disuse has come about principally through the rapid congregation of people into cities and villages, rendering these natural remedies difficult to obtain. Progressive business enterprise has lately led to putting these old time remedies within reach of all classes.

The proprietors of Warner's safe remedies, in the faith that the people of to-day would be benefitted by using the simple remedies of log cabin days, have caused investigations to be made and secured the formulas of a number of those which long and successful use had proved to be most valuable.

They will, we learn, be known under the general title of "Warner's Log Cabin Remedies." Among these medicines will be a "Sarsaparilla" for the blood and liver, "Log Cabin Hops and Buchu Remedy," for the stomach, etc., "Log Cabin Cough and Consumption Remedy," a remedy called "Scalpine," for the hair, "Log Cabin Extract," for internal and external use, and an old valuable discovery for catarrh called "Log Cabin Rose Cream." Among the list is also a "Log Cabin Plaster" and a "Log Cabin Liver Pill."

Well Done Bell.

Princess Louise, wishing to buy an organ this fall, requested two of London's most famous organists to select one, and after a thorough test they chose one of W. Bell & Co.'s. C. A. Lombard & Co. are the sole agents for British Columbia.*

VICTORIA AT BERLIN.

She Reviews Germany's Crack Corps at Berlin—Imposing Sight.

Queen Victoria reviewed the Grade du Corps regiment at Berlin on Wednesday last, April 26th. The Queen and the Empress Victoria were seated in a carriage drawn by four black horses, with postilions and outriders. They were followed by the Kron Prinz, arrayed in a general's uniform, seated on a dark gelding and a constellation of royal and serene highnesses and generals. The march past was perfection. The Grade du Corps regiment, in a column, came sweeping past at a brisk trot, making the earth tremble. Not a single trooper was a palm's breath out of alignment. The Queen seemed perfectly delighted. As the last squadron of that superb regiment passed by on their black chargers, arrayed in white and scarlet uniforms, brass cuirasses and helmets surmounted with huge silver eagles, the Queen turned to the Princess Victoria, who was in the carriage next her, and expressed admiration. As the fourth regiment of foot guards march past motionless as a statue near the Queen, the Kron Prinz put spurs to his gelding and placed himself at the head of the regiment and led it, saluting the Queen with his sword. Over 10,000 people came fourteen miles from Berlin into the sandy desert called Wftzleben to see the review. The Queen was greeted there with polite "hochs" now and then and a few Englishmen hurrahed, but the Kron Prinz was everywhere hailed with enthusiastic cheers, "hochs" and waving of handkerchiefs. The Queen looked splendid, the cold north wind giving a florid hue to her complexion, suggestive of the most robust health.

How It is Done Elsewhere.

We extract the following from the proceedings of the New South Wales Legislature as reported in the Sydney Morning *Herald*.

Mr. Hassall gave notice that he would move, as an amendment on Mr. Thompson's motion for steps to be taken to preserve order in the house, that there be set apart a portion of the garden grounds attached to Government House, for the purpose of erecting thereon a 24-foot ring in which honorable members might decide their quarrels; that seconds, timekeepers, and referees be appointed from both sides of the house; and that a charge of five guineas be made for admission; the proceeds to be devoted towards the erection of the State House.

Mr. Garrett said he would like to have the Speaker's ruling as to whether such a motion was in order. It was an insult and degradation to Parliament to have it placed on the paper.

Mr. Speaker said the honorable member had given notice of an amendment on a motion which was down for that day, and therefore it would not appear on the paper, but he had no hesitation in saying that if it were intended to appear on the paper on a future day he would consider it his duty to prevent it appearing. (Hear, hear.)

When Mr. Thompson's motion was called on he, withdrew it, stating that when he gave notice of it he was unaware that Mr. J. P. Abbott had already a notice on the paper on the subject.

GREAT WONDER.

Electro Magnetic Power Skillfully Applied in the Cure of Disease—The Wonderful Cures by Drs Darrin, Seattle, W. T.

Our people have been favored for some time by the presence among them of physicians possessed of remarkable power, making electro-magnetism the source of their cures. When Drs. Darrin first entered practice here, our own people were disposed to be very skeptical and naturally so perhaps, for many of the cures reported from time to time seemed to be almost miraculous. As time passed on, however, indubitable and positive evidence of the wonders they accomplished by their electro-magnetic treatment were given. Their fame rapidly spread not only in the city but through the country, and the afflicted flocked from all quarters in search of relief, and but few, indeed, have been turned away disappointed.

The following few testimonials are selected from the thousands of others that they have on file at their office. $10,000 will be given for those that are not genuine:

DEAFNESS RESTORED.

To the Public: I have been very deaf in one ear, more or less, for a long time, so I could not hear a tick of a watch, also accompanied by roaring and ringing sounds. I came to Drs. Darrin and consulted them in regard to it, and they said that I was curable. I have taken a few of their electro-magnetic treatments, and I now can hear as well as I ever could in my life. I give this reference freely, and can be referred to at Lowell, Snohomish county, W. T. EVANS HARMON.

EYES CORRECTED.

I have been cross-eyed all my life. I am now 21. I never attempted to have them straightened for fear of having them injured. Having heard of the wonderful cures and operations by the Drs. Darrin I went and put myself under their treatment. They did two operations, one on each eye, with perfect results. I can be seen and referred to—Seattle, near Lake Union. J. H. HALE.

CASE OF GENERAL DEBILITY AND CATARRH.

Twenty years ago, while working in a saw mill and doing heavy lifting, I was taken with a stitch of pain in my back, which resulted in a general debility. I have also for a number of years been troubled with catarrh, and tried many things for relief, but to no avail until I consulted the Drs. Darrin, and they have, after a few treatments, nearly restored me to health. I can gladly be referred to at Houghton, W. T. WM. GILBERT.

ANOTHER SOUL MADE HAPPY.

Mr. Isaac Wingard, of Centralia, W.T., writes Drs. Darrin as follows: "With pleasure I write you in regard to the treatment you gave me for asthma of eighteen years' standing. Your treatment has worked like a charm. I have had no symptoms of asthma since I have returned home. The cure seems to be permanent, and it gives me great joy to tell you this. Send me some of your circulars, as many of my neighbors wish to try your skill in their cases."

OFFICE HOURS AND PLACE OF BUSINESS.

The Drs. Darrin are located at the International Hotel, Cherry street, Seattle, W. T. Consultation free. They will under no consideration take a case that they cannot cure or benefit. Charges are reasonable and the poor treated free from 9 to 10 a. m. Tuesdays and Saturdays. Office hours, from 10 a. m. to 5 p. m., evenings 7 to 8; Sundays 10 to 12.

They cure permanently all diseases of the genito-urinary organs and make a specialty of deafness and catarrh, and also treat successfully all diseases of the nose and throat, eye and ear, as well as all acute and chronic diseases of whatever nature, if curable. No cases taken if not.

Most cases can receive home treatment after a visit to the doctors' office.

Inquiries answered and circulars sent free.

(The Drs. Darrin also have a branch office at 235 Fifth Street, Portland, Or., where any in that vicinity can consult them.)

Children Cry for Pitcher's Castoria.

Northern Pacific Express.

The office of the Northern Express Company has been transferred by Messrs. Hall & Goepel to Mr. E. E. Blackwood, agent for the O. R. & N. Co., and the Northern Pacific Railway Company has superior facilities for transporting money and all kinds of parcels and freight from Eastern Canada, the United States and California, and as low rates and quick dispatch is guaranteed, the route has always been a favorite one.

Mothers!

Castoria is recommended by physicians for children teething. It is a purely vegetable preparation, its ingredients are published around each bottle. It is pleasant to the taste and absolutely harmless. It relieves constipation, regulates the bowels, quiets pain, cures diarrhœa and wind colic, allays feverishness, destroys worms, and prevents convulsions, soothes the child and gives it refreshing and natural sleep. Castoria is the children's panacea—the mother's friend. 35 doses, 35 cents. my 21 2m.

Record Broken.

San Francisco has broken the elopement record. On Monday, April 23rd, a man about to elope was accompanied to the ferry with his wife, and the eloping female enjoyed the society of her husband as far as the cars. But even then she was not satisfied, for instead of eloping with the married gentleman she let him take one train, and followed in another with a smitten setor. A blush of conscious inferiority mantles Chicago's cheek.

The Drowning Accident.

Yesterday afternoon Charles Harvey, Frederick Westnedge, Samuel Hall and a woman named Mable engaged a boat at Bolton's boat house and went up to the Gorge. They had been drinking and in going through the rapids the boat struck on the rocks. Hall jumped out and turned the boat over. Westnedge pulled the woman out and Harvey swam ashore. Hall was intoxicated and as he was floating past the woman he tried to take her along, saying, "If I must drown you must go too." The woman eluded his grasp and the unfortunate man went around into the eddy. His body came to the surface three times and disappeared. Officer Campbell is grappling for the body, but it is likely that it will not be found for some days. Hall was the owner of a small sloop and was arrested a short time ago for smuggling three cases containing playing cards. He was a native of Cardiff, Wales, and aged about 35 years. The whole party had been drinking heavily during the afternoon and Hall capsized the boat either maliciously or in a joke, as he was heard to say before the craft turned over that he would drown the whole d— lot. Westnedge was arrested last night for creating a disturbance in front of the woman's house on Broad street.

—The feeling of weariness so often experienced in the spring results from a sluggish condition of the blood, which, being impure, does not quicken with the changing season. Ayer's Sarsaparilla, by vitalizing and cleansing the blood, strengthens and invigorates the system. *

—Mr. W. S. Smith, painter, has taken the fire-proof building on Government street, erected by Mr. Burris, the architect, and will occupy it as a shop. The stand is one of the best in the city for such a business.

—New to-day at the Albion House: Jackets, mantles, dress goods, linen collars, sets and handkerchiefs, prints, cambrics, sateens, ginghams and zephyrs, parasols and sunshades, art muslins, lace and scrim curtains, boys' and girls' straw hats, sheetings, table linen and table cloths. BROWN & WHITE. *

—Kurtz's Jubilee Cigars are now ready.

—Be earnest in your endeavors to find out where the best and cheapest Parasols are to be had, and do not forget the Lansdowne House, Yates street. *

Spring Immigration.

The arrival of immigrants at the eastern ports of Canada for this season of the year is very large. Occasionally the carrying capacity of the railways is taxed to convey these to their destination. Train load upon train load passes westward carrying hundreds and thousands to their new homes in the far west. So great is the hegira that the British journals are beginning to discuss the subject. In a recent issue the Edinburgh *Scotsman* thus referred to the emigration from that country: "With regard to Canada particularly, a good many inquiries are being made at the offices of emigration agents by people who intend to settle there. Notices have already appeared regarding proposals for British Columbia as a settlement for crofters. The desire for emigration has also spread to the east-coast fishermen. It is stated that a representation has been made through Mr. Lindsay to the agent of the Canadian Pacific Railway, with regard to what may turn out a large scheme of emigration from Cockenzie, and it would seem that if advantages were offered in British Columbia to fishermen such as have been proposed for West Highland crofters, a large number of fishermen from the east coast generally would take advantage of them. It is stated that an Edinburgh gentleman of means is about to proceed to the northwest of Canada, with the view of making inquiries in regard to colonization in those parts. To other British Colonies, with the exception of New Zealand, the amount of emigration is said to be larger than usual, and trade prospects in British possessions are said to be better now than last year."

The Raging Fraser.

About 5 o'clock this morning, says the New Westminster *Columbian* of last Saturday, the river, opposite the city, was covered with a mass of driftwood, trees, logs, stumps and other debris. Many of the trees had evidently been lately uprooted, their tops being green, and bushes in leaf were also noticed among the floating mass. The river has been steadily rising for more than a week and is now very high for this time of the year. Some of the old inhabitants, who have a good knowledge of the river, are of the opinion that a gigantic landslide has occurred up the country, or that the Fraser has been making for itself a new channel.

SCHOOL TRUSTEE MEETING.

A Dissertation on Onion Eating—Medical Opinion on the Subject.

A meeting of the School Board was held in the City Hall on Monday evening. Present, Chairman Hayward, Secretary W. Walker, Trustees Milne and Heisterman.

Accounts amounting to $32.75 were read and ordered paid.

The Secretary reported that copies of resolutions passed at the former meeting had been forwarded to each representative for this city, the members for Esquimalt and the Minister of Education.

The monthly report showed an average daily attendance of 964.65 pupils, an average to each teacher of 48.

Trustee Heisterman moved that applications for positions as teachers be received up to 29th May. Carried.

Chairman Hayward stated that the Trustees had been misrepresented during the discussion in the Legislature on the new School Act. The Board had asked the Government for power to levy a small tax to increase the sum for the necessary incidental expenses of the schools, it being found that the Government grant for that purpose would not be increased. He said: "This Board certainly never thought or proposed that a portion of the teachers' salaries should be imposed on the municipality."

Trustee Milne said that the resolution brought before the school board was to the effect that the city be given authority to supplement the amount contributed by the government for incidental expenses and not for the purpose of aiding in the payment of teachers' salaries. It was never intended that the special taxation, as provided by the act, should be instituted.

Trustee Heisterman stated that the government took a wrongful advantage of the proposition made by the trustees. They took an undue advantage of the resolution passed by the board and imposed a tax on cities which was unjust and unfair.

Trustee Walker condemned the government for imposing a tax on municipalities for school purposes.

A complaint from one of the teachers was brought up by the chairman. The lady considered the onion eating habit offensive. The children were all in the habit of eating onions, the smell from them was not agreeable to the olefactory organs of the lady teachers. The parents said that medical men had reported that children who eat onions never suffer from diptheria or any sudden disease.

Dr. Milne said while onions were very healthy they were not the least preventative against either disease. In his opinion it was certainly very unpleasant for a lady teacher when her scholars all ate onions. The board then adjourned.

The Crofters' Question.

Says the Winnipeg *Free Press* of the 26th ult.: Alex. Begg waited on Premier Greenway yesterday and offered to direct the Crofter immigration to this province instead of British Columbia, if Manitoba will enter into the same agreement with the Imperial Government as British Columbia. In brief this agreement provides that the British Government shall advance £150,000, say three-quarters of a million dollars, to be expended in paying the passage and erecting buildings on homesteads to be patented to the Crofters. On this outlay, or so much of it as may actually be expended in the settling of the Crofters within the province, Manitoba is to pay England 3½ per cent. interest for a term of years and to have a lien upon the homesteads of the Crofters for the amount paid in interest and the reimbursement of the capital outlay to the British Government. No interest is to be paid the first year. Mr. Greenway announced his willingness to enter into such an agreement with Great Britain and the probabilities at present are that we will obtain a large share of this desirable class of immigration. The reason Mr. Begg made this proposition to Mr. Greenway is that he is not favorably impressed with the agricultural capabilities of British Columbia. He left last evening for Ottawa to secure the co-operation of the Federal Government.

Shipping Notes.

Steamer Batavia arrived at Yokohama on 25th April.

British bark Gainsborough, 985 tons, is chartered to load lumber from Burrard Inlet to Melbourne at 55s. per M.

British ship Cedric the Saxon, from Liverpool for San Francisco, put in at Rio Janeiro on April 25th partially dismasted in a gale.

The British ship Halewood, Captain Strap, and the Ardmillon, Capt. Mitchell, left San Francisco in company on Thursday last. Both vessels are bound to Cork, and a race is on between the two ships. Quite a large sum of money has been wagered.

A collision occurred in Tacoma harbor on Friday morning. The bark Royal Alice and steamer Premier came together; part of the cabin roof of the latter was torn off. Capt. Fletcher of the Royal Alice cut away the wire cable, martingale and stay ropes on his vessel's jibboom thereby causing very little damage to the Premier.

Steamer St. Paul, Captain Erskine, arrived in San Francisco on April 27th from Gunalaska, nine days out. Captain Erskine reports that all has been quiet this winter in Alaska. When the St. Paul left Gunalaska on the 18th instant it was yet too early for the private sealers to have put in an appearance. The winter was open, but the spring cold. The steam whalers Thrasher, Balena and Orca, the brig Hidalgo and the schooner J. A. Hamilton have all reported at Gunalaska clean, and have departed for the Arctic.

The Indian Question.

In the Senate a few days since Senator Giruard brought up a resolution relating to Indian schools, upon which a warm discussion took place. Senator Macdonald, of this city, spoke on the question. In the course of his remarks he observed that "the subject before the House is a most difficult one to deal with. I am entirely opposed to pauperizing the Indians, as is being done in the Northwest, and so long as the system prevails they will continue beggars and paupers on our hands. Nothing but industrial schools, and a system by which these Indians will earn their own living will do any good. The system which now prevails with the Indians I am sure must be very unsatisfactory to the government themselves. They employ a number of agents throughout the country whose duty it is to issue a few rations at stated periods to the Indians and write up an annual report. Such a system must be very unsatisfactory. The agents are sometimes dishonest and often report dishonestly, and before this notice was given by the honorable gentleman from St. Boniface I had prepared a question myself in the same direction in relation to the Indians of British Columbia. I would suggest now to the government that they should take means at once to establish industrial schools, whether in farming, fishing or some other direction, for the benefit of those Indians because the present system is unsatisfactory and injurious. The honorable gentleman who has brought this subject forward deserves our gratitude for having done so. If the Indians in the part of the country which he refers to are starving they must be fed by the government."

—Wm. J. Graham, a native of New Brunswick, aged 28 years, died in San Francisco on April 23rd.

PROVINCIAL COURT.

(Before Judge Eli Harrison.)

The charge of assault against Captain Wm. Madden was again brought up this morning in the Provincial Court.

Bernard Moore stated—I know Defendant; Henry Moore was my brother; I worked on board the steamer Teaser in the year 1885; went to Tongas and saw W. Madden on the steamer on the night of Nov. 30th 1885; we arrived in Tongas and at 10:30 heard a noise; was going up stairs when I was met by four or five Indians armed with rifles; went on deck and saw John Cuthbert standing in the doorway of the captain's room with a rifle in his hand; my brother William who was captain of the steamer was in the room under arrest; William Irving was sitting down near Cuthbert; shortly after Henry Moore came aboard; he took hold of Cuthbert's rifle and demanded his authority for coming aboard; Cuthbert said he was taking the steamer; Henry Moore told him to remove his men; William Madden caught hold of my brother and held his revolver at his head, saying he would kill him; Irving and Cuthbert took hold of my brother; Madden then grasped Henry by the throat and holding the pistol at his head again said he would kill him; think the pistol struck him in the face; when witness went into the room Madden struck at him in the face; in the scuffle Henry fell down; on recovering his feet I noticed that his arm was bleeding profusely and also that he was in a very weak condition; heard Henry tell William to go ashore for Mr. Bond; the latter came on board and forbade anyone to commit overt acts, raise the anchor, or remove the vessel; he told them that they would do so at their peril; Cuthbert said he would do so at his peril; Henry Moore then placed himself under Mr. Bond's protection, being afraid of his life. Eighty days after this came down to Victoria; went to Roche Harbor because a charge of piracy had been preferred against me; from Roche Harbor went to Port Townsend and Seattle; Henry and William went to Port Townsend to lay information against Madden for taking the steamer and also for assault; did not get out any warrant because the attorney said the information would have to be laid at Sitka; my brother was on his way to Sitka when he was murdered; returned to Victoria on 11th May, 1886; stayed until next day; went up north; went to the Stickeen river in company with my father; returned in July; Henry was not in Victoria; in May my brother left on the schooner Seabird; he arranged to act as pilot on the schooner from Port Townsend to Sitka and from thence to Juneau; I saw Madden again in this city about a month ago; Madden came to Tongas on a schooner owned by the Hudson's Bay Company.

To Mr. Gannaway—Cannot say how much the Teaser was sold for; William was employed on the vessel for three or four trips before we went to Tongas; Herbert Mansell was engaged on the day before the steamer left for Tongas; there were employed on the Teaser William, Henry and Bernard Moore, Henry Mansell, a brother-in-law to Henry, Cyrus Hardy, and a number of others; before the vessel left for Tongas she plied between here and New Westminster; Turner, Beeton & Company had a mortgage on the vessel, but I did not know the amount of the mortgage; heard my father and Henry talking about the indebtedness of the steamer; my brother said Turner wanted to play him a dirty trick and he would not stand it; he would take the steamer up north; he had no suit with Turner, Beeton & Co., but wrote them several letters; the night was dark when the party boarded the steamer and they were aboard before we knew it; Henry sat on the bed with a rifle across his knees and when Cuthbert said he would take the vessel Henry said his corpse would go with it; Madden then rushed in and grabbed Henry by the throat; William and witness came down on the Teaser; Henry put himself under the protection of the collector of customs at Tongas and returned on the steamer Idaho; he did not come ashore because six policemen were on the wharf waiting for him to come ashore; my father and I talked over this matter and come to the conclusion that something should be done to justify Henry Moore before the public and to punish Madden; heard Henry say that Turner, Beeton & Co. took in enough money to pay the mortgage off and pay all the debts.

At the conclusion of Bernard Moore's evidence Mr. Walker, on behalf of the prosecution, withdrew the charge against Captain Madden and the case was dismissed.

INTERIOR JOTTINGS.

(Condensed from the Kamloops Sentinel.)

Mr. Thomas Lambly will commence the erection of his new hotel at Enderby immediately.

On April 17th spring work was far advanced at Okanagan. There has been increased seeding this year.

Capt. Smith, of the Red Star steamer, now makes regular trips every other day between Enderby and Sicamous.

Wm. Pooley, of Nicola, and Miss Jenny Douglas, of Picton, N. S., were married in the Kamloops Presbyterian Church on Thursday evening last.

Seven Finlanders who obstructed Officer Kirkup and other officials in the discharge of their duties at Revelstoke have been sent to Kamloops jail for six months.

There are seventeen prisoners in Kamloops jail at the present time, serving terms or awaiting trial. The prisoners have been sent from every part of the interior to this point.

Miss M. J. Browne and Miss A. R. Browne, sisters of Mr. J. L. Browne, have arrived at Kamloops from Toronto and have opened a dress and mantle making business in connection with the store of Mr. Browne.

Generally Spallumcheen is backward this year, owing to the length of time the snow remained upon the ground. In some localities the fall wheat was not a success and some parties are covering it with spring wheat.

Mr. M. Hagan, of Okanagan Mission, for some years editor and proprietor of the *Sentinel*, arrived at Kamloops on Saturday last, to undergo treatment at the hospital for an injury to his right side, received some time since.

Government Engineer McKay, of Victoria, returned to Kamloops on Tuesday from an extended trip through the Spallumcheen and Okanagan districts. He is favorably impressed with the feasibility of the artesian well scheme.

A meeting of the citizens of Kamloops was held Thursday evening last to give public expression to the high esteem in which the late Hon. Thos. White was held in that community and to express sympathy for the bereaved family and friends.

The Odd Fellows of Kamloops celebrated Natal Day with a social gathering and entertainment. Those who assisted were Mr. and Mrs. Clyde, Miss McLean, Rev. Messrs. Chisholm and Turner, Mr. Campbell and sons, Messrs. Ashton, Whitbeck, McLeod, Renier, Burnyeat, Geo Lonsy. During the evening Bro. Edmunds was presented by the Noble Grand, on behalf of the lodge with a Past Noble Grand's jewel.

—For the largest and best assortment of FURNITURE, CARPETS, CROCKERY, GLASSWARE, LAMPS, &c., go to J. SEHM, Government Street, where you are sure to get suited in style, quality and lowest prices. *

POLICE COURT NOTES.

(Before Hon. A. N. Richards, Q.C.)

Frederick Westbridge, charged with being drunk; $5 or one week.

Martin Johnson, charge, drunk; $5 or one week.

Elizabeth Isaacs, on remand from the 27th inst., charged with having no visible means of maintaining herself, was discharged on promising to leave the city.

The New Plush Cretonnes.

Beautiful patterns in this stylish material for Curtains, &c., just received at the CITY HOUSE.

When Baby was sick, we gave her Castoria,
When she was a Child, she cried for Castoria,
When she became Miss, she clung to Castoria,
When she had Children, she gave them Castoria.

ROYAL

BAKING POWDER

This powder never varies. A marvel of purity strength and wholesomeness. More economical than the ordinary kinds, and cannot be sold in competition with the multitude of low tests short weight alum or phosphate powders. SOLD ONLY IN CANS. ROYAL BAKING POWDER CO. 106 Wall Street, New York.

NEW TO-DAY.

Teachers Wanted.

APPLICATIONS FOR POSITIONS ON THE teaching staff of the Victoria Public School will be received by the undersigned until Monday, 28th May.

W. WALKER,

my1-td Sec'y Victoria School Board.

AN INSURANCE QUESTION.

TO THE EDITOR OF THE TIMES:

SIR:—Would you kindly inform me how long an insurance company can legally refuse or neglect to pay a just claim for loss by fire? My property was destroyed by fire on the 12th of February last, and notwithstanding that an inquest was held and failed to ascertain the origin of the fire, no settlement has yet been made by the Guardian Insurance Co., which had a risk of $2,000 thereon. Turner, Beeton & Co. are agents for the company concerned, and from them I can obtain no satisfaction. S. JONES.

[NOTE.—We are unable to answer the question, and refer the writer to the agents of the insurance company or to a legal gentleman.—ED.]

Tenders Wanted.

TENDERS FOR REMOVAL OF EARTH AND rock, and the lowering into position of the two buildings south from Sehsen's grocery, N. E. corner of Douglas and Discovery Streets. Lowest or any tender not necessarily accepted.

my1-1w R. T. WILLIAMS.

NOTICE.

Kootenay Railway & Navigation Co.

A GENERAL MEETING OF SHAREHOLDERS of this Company will be held at the office of Messrs. Drake, Jackson & Helmcken, Fashion street, Victoria, on Thursday, the 17th day of May, at 12 o'clock noon. By order of the Directors. GEO. J. AINSWORTH,

my1-td
